Ref.	Description			
1	Water temperature control unit Series HYDROWER model TCU 5/2H12/XHP with direct cooling suitable up to max 90°C, 24 kW heaters, temperature reading on the return			

TECHNICAL DESCRIPTION

Ref.1

Temperature Control Unit Series **HYDROWER mod.TCU 5/2H12/XHP having following specifications:**

- **Water pump type vertical multistage having 2,2 kW motor power**
Water flow range 2,4/7,8 m³/h
Pressure range 10,3/4,05 bar
- 2 x 12 kW stainless steel electrical heaters
- Water pressure indicator
- Delivery water temperature
- Return water temperature
- Closing frame
- Microprocessor control equipped with touch screen display
- Serial outlet type Ethernet
- On/off contact for remote start and stop
- Alarm free-potential contact available
- 3-ways modulating valve equipped with motor
- Electrical power box equipped with main switch
- 2 inlet connections diam.1"
- 2 outlet connections diam.1"
- Electrical power box
- Movable wheels, 2 equipped with breaks
- Unit dimensions in mm: 1150 x 505 x (h) 1300
